THE HUNGER PROJECT AUSTRALIA

About the hunger project

The Hunger Project (THP) has a 35-year track record of standing in partnership with people living in abject poverty as they work to end their own chronic hunger. THP works in Africa, India, Bangladesh, reaching 24 million people in nearly 20,000 villages in the most rural places imaginable.

THP believes that hunger can end, and that ours is the generation that can end it once and for all. They believe that the people living in hunger are the solution. The work is to unlock their capacity, creativity and leadership so they can end their own hunger.

After Alison travelled to Malawi in 2014 with THP, she is committed to seeing the funds from this event go directly to the incredible work that THP does on the ground.

“When we look after ourselves, we have the capacity to look after others.”
